1.0 Introduction

This Environmental Policy and its associated procedures apply to all activities of ATG Group, wherever work is carried out and is to be followed by all employees as well as any nominated parties working on the Company's behalf.

This Environmental Policy is also communicated to customers & suppliers and is made available to other interested parties when deemed appropriate.

ATG Group believes it has an important duty to ensure optimal environmental performance in all its business operations and to provide the necessary organisation, commitment, and training to fulfil this obligation. The senior management firmly believes in, and is committed to monitoring and improving environmental performance, pollution prevention and environmental protection.

2.0 Actions

In line with this Policy, ATG Group will endeavour to:

- Continue to fully meet the requirements of BS EN ISO 14001
- Comply as a minimum with all relevant environmental legislation as well as other environmental requirements
- Source sustainably produced products and services where possible
- Set, monitor, and attain all objectives and targets for managing our environmental performance, to ensure strict control over the environmental aspects of all services, processes, and facilities
- Pursuing continuous improvement in environmental performance, where reasonably practicable, by setting objectives and targets

3.0 Aims and Objectives

The Company's key aims and objectives for the delivery of environmental protection are:

- The adequate and correct disposal of general and hazardous waste
- Reducing the likelihood of spills by ensuring adequate training and good housekeeping
- Minimising resource use by reducing energy and water consumption where possible and increasing reuse and recycling of materials
- Reducing and ensuring that dust and noise pollution generated by the Company's operations do not exceed acceptable limits
- Ensuring that herbicides are only used by trained and responsible members of staff and external factors are considered such as weather conditions
- Minimising our carbon footprint through sustainable journeys i.e. car/van sharing
- Taking all available steps to ensure biodiversity is not impacted by site works
- Reviewing this Policy on a regular basis to make sure it's relevant
- Bringing this Policy to the attention of all our employees and interested parties

Its processes are described and controlled in its Environmental Management System and all its activities are carried out in accordance with this documentation.
